

Bi-Monthly report

----Andy Zhang

2016.11

Summary of the past

- Paper sharing
 - Large-Scale Information Extraction from Textual Definitions through Deep Syntactic and Semantic Analysis
 - Learning to compose neural networks for question answering
- Models
 - End-2-end Memory network
 - Neural machine translation based on attention mechanism
 - Torch, theano

Work in the future

- Combine attention mechanism and memory network
- Write a guide of memory network

- Thank you
